Pharmacy Assistant

Program: Students receive comprehensive training to assist Pharmacists with prescription requests, manage inventory, maintain patient data and profiles, and communicate effectively with patients, suppliers and health care personnel. Students will learn to exercise critical-thinking, problem-solving, decision-making, and sound judgment.

Graduates are well-positioned to join the pharmacy team, providing skills with confidence, professionalism and accountability, in accordance with Ontario College of Pharmacy standards. Faculty includes Certified Pharmacy Assistants and Technicians who have practical experience.

Duration: 40 weeks

Curriculum: Orientation to Pharmacy Practices, Dosage Forms, Math, Jurisprudence, Drugs & Diseases, Systems and Procedures – Community/Hospital Dispensing, Compounding, Sterile Products, Communications & Interpersonal Skills, Computer Training

Registration: On-going

Admission: Proof of completion of Grade 12 (science courses preferred) or a mature student exam for those without a Grade 12 diploma. Additional requirements are detailed at www.cchst.net.

Tuition: Tuition and financial assistance details are available through the Registrar's Office.

Certification: Students must complete all subjects and attain a 70% score to be awarded a CCHST Diploma and can become Certified as a Pharmacy Assistant by successfully completing the National Association of Career Colleges' Pharmacy Assistant Certification exam.

Career Path: Employment opportunities exist within pharmacies, nursing homes and long-term care facilities, hospitals and clinics.

Why Our Grads are in Demand: Taught by faculty who are practicing professionals
Practical training in supervised pharmacies
Employment opportunities are in demand as per Stats Canada - LMI data 2005

The Canadian College Advantage

Canadian College of Health, Science and Technology (CCHST) is a locally-owned, private career college and the only career college in the Southwestern Ontario region that specializes exclusively in health care and information technology (IT) programs.

Canadian College students like the fact they're taught by instructors who are also employed in the area of specialization they teach. Their day-to-day experiences in the real world provide students with a well-rounded education and in-depth training.

Our small student-to-instructor ratio permits our faculty to focus on you, the student, to ensure we make the best use of your potential and guide you in successfully achieving your education goals. Your course of study will include 'on-the-job' training to ensure you're well-prepared to enter the workforce.

Take a good look into the Canadian College advantage and see why 90% of our grads are working. We make career education fun, and with some of the lowest tuition rates in town, very affordable!
